

If you have purchased any slot games from us, you can edit some general settings for these games.

You can open files:

[“resources/settings/5rs_settings.inc.php”](#) – settings for 5 REEL SLOTS

[“resources/settings/7rs_settings.inc.php”](#) – settings for 7 REEL SLOTS

[“resources/settings/9rs_settings.inc.php”](#) – settings for 9 REEL SLOTS

And adjust the settings. You can edit the files using any file editor, including NOTEPAD.

To adjust payable values and payout values for each slot symbol, please contact us at sales@casinowebscripts.com , and we will tell you what files you must edit.
